No. 64-07/06-Broadband (Pt.II)

Dated: 29-06-2011

To

All Chief General Managers,
Telecom Circles/Districts

Subject : Broadband Modems.

With reference to letter no. even dated 14th June, 2011, several queries have started coming from Circles. Therefore, it is to clarify that if some customer desire to have Type-II Modem (Wi Fi), we may take the charges for Type-II Modem and provide him Type-I Modem at present, and whenever Type-II modem gets available, the same may be replaced. Otherwise, we may take charges of Type-I Modem and take the difference of charges between Type-I & Type-II Modem when the same become available. BSNL may not charge anything additional with respect to transportation or installation charges for Type-II Modem at a later date. The same methodology is applicable for modem on rent. For example, if somebody desire Type-II modem and we provide Type-I modem at present, we may charge only for Type-I modem as rental, that is, Rs.50/- per month. Later on, when Type-II modem (Wi Fi) gets available, we may change Type-I modem with Type-II Modem and start taking the rent of Rs.80/- per month.
