**To
Heads of all SSAs
BSNL, TN Circle**

Kindly refer this Office letters cited above regarding Broadband connectivity to Village Panchayat Offices. SSAs were asked to provide the BB connections through Landline/ Wi-Max alongwith WLL phone for Voice. For the locations not feasible by both LL/ Wi-Max, CDMA Data connection is to be provided. For this purpose, a special Internet plan as 'Plan CDMA Village Panchayat' has been created in Kenan FX.

It is reported by some of the SSAs that in some locations, all the three Technologies are not feasible. In those locations, SSAs shall test with GSM Data card/ FWP. GSM 2G Data plan has already been created, plan name as 'Plan Village Panchayat'. If Data card is working satisfactorily, the same the may be provided to the Customer. These locations may be identified by the SSAs and requirement of Data Cards, if any may be furnished to this Office.
