**Sub:- NADRS project regarding.**

This unit has been working on NADRS Project to connect all Veterinary office under ministry of Agriculture across India. Advice note for the same were issued in the month of Feb&March'11. Connection to be provided were- VPNoBB 256Kbps with Sulabh (Incoming only) under domain name of nadrs.nic.in.

Problem of local disconnection of these connections are still continuing even after repeated requests and pursuance with concern circles. Following has been observed in many cases causing problem of local Disconnection.

- 1 **Wrong Plan Creation:-** Wrong plan have been created in many cases in CDR. Correct plan details Zone Wise attached in Annexure-I.
- 2 **Provisioning of Outgoing Facility & Broadband Internet on Landline:-** In many cases sulabh connection with outgoing facility and/or Broadband Internet has been created. It needs to be checked in CDR and Switch/exchange both. If any connection has outgoing facility opened or Broadband Internet allowed the same may be withdrawn immediately.
- 3 **Non Clearance of wrong Outstanding:-** Due to wrong plan creation in CDR, these connection accumulate outstanding which needs to corrected.

Following is requested in respect of this project:

- 1 **Monitoring at Circle level: -** It is requested to nominate one officer in EB unit at Circle level for re-verification of all connections provided under NADRS and get corrected the errors to avoid further disconnection in future. Consolidated Creation list can be obtained from concerned CDR Zonal centre. Available data with this unit are also being sent through e-mail separately to respective EB units.
- 2 **Bill Verification:-** This unit is raising bills to the customer with connections data as shown in Annexure-II for financial year 2010-11, 2011-12 & 2012-13. Detailed list is being sent through e-mail separately to respective EB units. Discrepancy if any may be intimated immediately.

- 3 **Completion of the Project:** - Still about 933 connection are pending for provisioning as per detail given in Annexure-II. This unit has already issue instruction to provide on Wimax if not feasible on Copper. Final completion status may please be provided.
